DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 16-18, drawn to centrifuging blood, classified in class 210, subclass 782.
- II. Claims 10-15, drawn to cleavage of fibrinopeptides, classified in class 530, subclass 382.

Inventions in Group I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case claims Group I correspond to a centrifuge apparatus for separating blood or plasma in to its components. Claims in Group II are directed at a method of cleaving fibrinopeptides from fibrinogen contained in blood or plasma. The method of cleaving the fibrinopeptides as claimed in claim 10 does not require a centrifugation process and could also be accomplished by heating blood by materially different means other than filtered radiation heat, and the separation of the fibrinogen from blood also could be accomplished by materially different means other than centrifugation as claimed in the dependent claims 11-14.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 1723

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Telephone calls were made to Mr. Stuart E. Kreiger, attorney of record, on 6/21, 6/24 and 7/01/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krishnan S Menon whose telephone number is 703-305-5999. The examiner can normally be reached on 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda L Walker can be reached on 703-308-0457.
